FM 803 ENVIRONMENTAL ASSESSMENT SERVICES

Question: Is it anticipated that the EA for the FM 803 Project will involve all of the EA steps defined in the TXDOT Environmental Manual (2004)? What portion or portions of the Environmental Manual will be involved in the FM 803 Project?

ANSWER: Responder should be familiar with the provisions of state and federal guidelines as it pertains to preparing an environmental assessment including the most recent TXDOT environmental manual. Responder should demonstrate an understanding of preparing the necessary documents and material for TXDOT related projects.

QUESTION: Is there a schematic or map showing alternative(s) of the proposed TXDOT project?

ANSWER: Please visit the CCRMA website **RMA Projects** section under the **FM 803 Schematic/Map** link to see a general layout of the project.

QUESTION: Will the consultant be required to provide all Public Involvement services or will the RMA manage the process with the consultants support?

ANSWER: The CCRMA will oversee and manage the Public Involvement process undertaken by the consultant. It is the expectation of the CCRMA to have the responder/consultant manage and implement the technical portions of the public involvement process in consultation with the CCRMA staff, including the technical presentations at Public Meetings or Public Hearings.

QUESTION: Does the CCRMA have a list compiled of local Historically Underutilized Businesses and or Disadvantaged Business Enterprise firms?

ANSWER: The CCRMA does not have a current list of HUB or DBE firms. Please refer to listings or directories of certified small, woman-owned and minority-owned businesses maintained by TxDOT.
